

Please Note

GTTA DVD & YouTube Media

During tournaments or other events, Martin Stacey has been designated by the GTTA President to record video images and associated photographs.

This material may subsequently be edited and displayed as promotional media on the GTTA YouTube website or compiled in to DVD format.

Should anyone not wish to have their direct image displayed or used in this way, please make this known to Martin who will endeavor to exclude them wherever possible from any direct display within edited media.

Due to the nature of our sport, it is not always possible to exclude indirect images of persons who maybe umpiring or in the background, we therefore request your understanding and acceptance in this respect.

Thank you

Persons wishing to use camera or video equipment during events are welcome to do so but must first obtain consent from the organisers prior to use.
